**Lake Underhill Road Roadway Conceptual Analysis**  
**LPA Workshop Summary**  
**May 20, 2010**

---

---

On May 20, 2010, a Workshop for the Lake Underhill Road RCA Study was held with the Planning and Zoning Commission (Local Planning Agency) at the Orange County Administration Center, Commission Chambers.

Brian Sanders, Chief Planner, Orange County Public Works, gave a brief presentation on the project that addressed the need for the project, the improvements considered, the recommended alternative, a review of the public involvement process, and the project schedule. Renzo Nastasi of OCPW was also in attendance.

Following the presentation, several comments were made by the LPA board members.

- ***Comment/ Question***  
Mr. Geller noted that the Fieldstream community had requested signals at Fieldstream North Boulevard. Mr. Sanders replied that signals will be installed in the future as part of the roadway widening improvements in the area.
  
- ***Comment/ Question***  
Mr. Geller observed that the proposed improvements may tend to increase travel speeds in the corridor due to the capacity improvements as well as the proposed 12-foot travel lanes. He suggested that consideration be given to reducing the lane widths from 12 feet to 11 feet from Pinar Drive to Deerwood Avenue as a measure to reduce travel speeds. Mr. Nastasi indicated the County would consider this measure.
  
- ***Comment/ Question***  
Ms. Pignone noted that roadway widening improvements similar to those proposed for Lake Underhill Road are needed in the eastern area of the County.

The Work Session for the Lake Underhill Road RCA Study concluded at approximately 3:00 pm.
